Subject: Night Ops 5/30-31/10

Chris,

Chalmette:

- Air monitoring and sampling night crews worked from 1800 5/30/10 through 0600 5/31/10 without incident.
- Crews reported 0 exceedances of the site specific action levels established for air quality.
- All sampling information was published during the night, with plans to publish monitoring data at noon on 5/31/10
- All crews reported safe working conditions. The crew struck a wild pig near station C05, causing damage to the rental vehicle. A NOI form will be completed and safety issue discussed with field crews.
- No odor or visual detection of oil.
- Crews exchanged miniRaes at locations C02 and C04.
- All sampling equipment operating properly

Venice:

- No problems with air stations V02, V03, or V05
- Crews reported 0 exceedances of the site specific action levels established for air quality.
- Air monitoring and sampling night crews worked from 1800 5/30/10 through 0600 5/31/10 without incident.
- The EBAM at location V05 shut down at 0248 due to electrical problems. The crew conducted repairs and successfully restarted the unit.
- All sampling equipment operating properly
- No health and safety issues to report.
- No olfactory or visual observations to report

David
